CRITICAL COLLECTION PROBLEMS COMMITTEE

20 SEP 1963

MEMORANDUM FOR: Chairman, Guided Missile and Astronautics Intelligence Committee

SUBJECT: Intelligence Gaps

REFERENCE: GMAIC Memorandum SS #211056, Subject: Transmittal of ABM Working Group Conclusions on Intelligence Gaps, dated 14 November 1962

1. The Critical Collection Problems Committee has designated a Task Force to conduct a review of the collection effort against the Soviet ABM problem with the objective of providing recommendations for the improvement of the collection program. It is believed that a logical point of departure for the review might be a consideration of the intelligence requirements and gaps against the Soviet ABM problem as determined by the GMAIC.

2. The document referenced in paragraph 1 is an excellent treatment of the requirements and gaps concerning this problem. It is requested that GMAIC reaffirm the currency of the document or provide the CCPC with an updated version not later than 4 October 1963.
